ABOUT

B.M.R. ENTERPRISES

At B.M.R. Enterprises, precision is not just a capability—it is our culture. Established on May 21, 2024, we are a new-age precision machining company built with a clear vision to support the evolving demands of the automotive and allied industries.

Located in the RIICO Industrial Area, Rampur Mundana, Bhiwadi, we operate at the intersection of advanced CNC machining, intelligent product design, and cost-optimized manufacturing. Our facility is equipped to deliver high-accuracy components that meet strict dimensional tolerances, surface finish standards, and performance expectations required by modern automotive applications.

Beyond manufacturing, we bring strong product design and development capabilities, enabling us to collaborate closely with customers from concept to production. Whether it is refining an existing component or developing a new solution from the ground up, we focus on engineering efficiency, material optimization, and long-term reliability.

What truly defines B.M.R. Enterprises is our commitment to well-optimized and cost-effective solutions. By combining process expertise, lean manufacturing principles, and a deep understanding of real-world industrial requirements, we help our customers achieve superior quality without unnecessary cost or complexity.

Driven by skilled professionals and powered by modern CNC technology, B.M.R. Enterprises stands as a reliable partner for companies seeking precision, consistency, and innovation in machining.

OUR VISION

At B.M.R. Enterprises, our vision is to become a trusted benchmark in precision machining for the automotive and allied industries—recognized for top-notch quality, engineering integrity, and long-term partnerships.

We aspire to build a future where every component we manufacture reflects absolute precision, consistent performance, and uncompromising reliability. By continuously investing in advanced technology, skilled talent, and process excellence, we aim to support the next generation of automotive innovation with components that are efficient, durable, and intelligently engineered.

Our vision goes beyond growth in scale; it is about earning trust through precision, delivering value through optimization, and becoming a name that customers associate with confidence, dependability, and excellence in every project we undertake.

OUR MISSION

Our mission at B.M.R. Enterprises is to deliver high-precision, top-quality machined components that meet and exceed the technical, functional, and economic expectations of our customers.

We are committed to:

- Providing precision-driven machining solutions that comply with strict dimensional and quality standards.
- Building trust-based relationships through transparency, consistency, and on-time delivery.
- Offering cost-effective and well-optimized solutions without compromising on quality or performance.
- Collaborating closely with customers in product design and development, from concept to production.
- Continuously improving our processes through lean manufacturing, skilled workmanship, and modern CNC technology.

Guided by engineering discipline and driven by customer needs, our mission is to be a reliable manufacturing partner—one that delivers precision today and contributes to sustainable success tomorrow.

PRODUCTION FACILITIES

**Ace Slant Bed CNC
Lathe J 300 LM
with 8 inch Chuck**

Quantity : 6 Nos.

**Surface Grinding
Machine** (Swing
Over Table: 450 X
200 mm)

Model :
BMT M1020 OT

Quantity : 1 Nos.

**Vertical Turret
Milling Machine**

Model :
PAC MILL 3S

Quantity : 1 Nos.

Lathe Machine

Model :
6 Ft. with 80 mm
Bore

Quantity : 1 Nos.

PRODUCTION FACILITIES

Manual Drill

Model :
3 Ft. Drill Machine

Quantity : 1 Nos.

Arc Welding & Mig Welding Machine

Model :
Uttam - HEAVY MODEL(2P/1P)
Electra - MIG 250
Quantity : 1 Nos. Each

Pipe Cutter

Model :
Dewalt D28703

Quantity : 1 Nos.

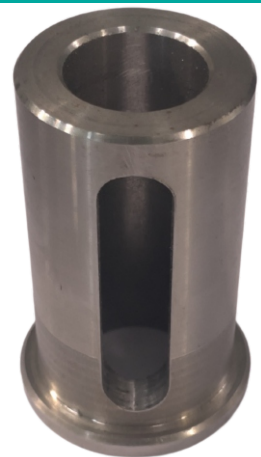

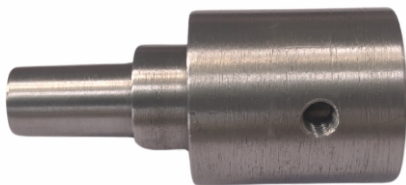

Air Compressor

Model :
ELGI - 10 HP

Quantity : 2 Nos.

OUR PRODUCTS

OUR INSTRUMENTS

<u>S. No</u>	<u>Name Of Instrument</u>	<u>Quantity</u>
1.	Profile Projector	1 Nos.
2.	Digital Height Gauge	1 Nos.
3.	Vernier Caliper	1 Nos.
4.	Micrometer 0-25	1 Nos.
5.	Micrometer 25-50	1 Nos.
6.	Air Gauge Unit	1 Nos.
7.	Comparator Stand with Dial	1 Nos.
8.	Dial Indicator	1 Nos.
9.	Surface Plate (600x600 mm)	1 Nos.
10.	Bench Centre	1 Nos.

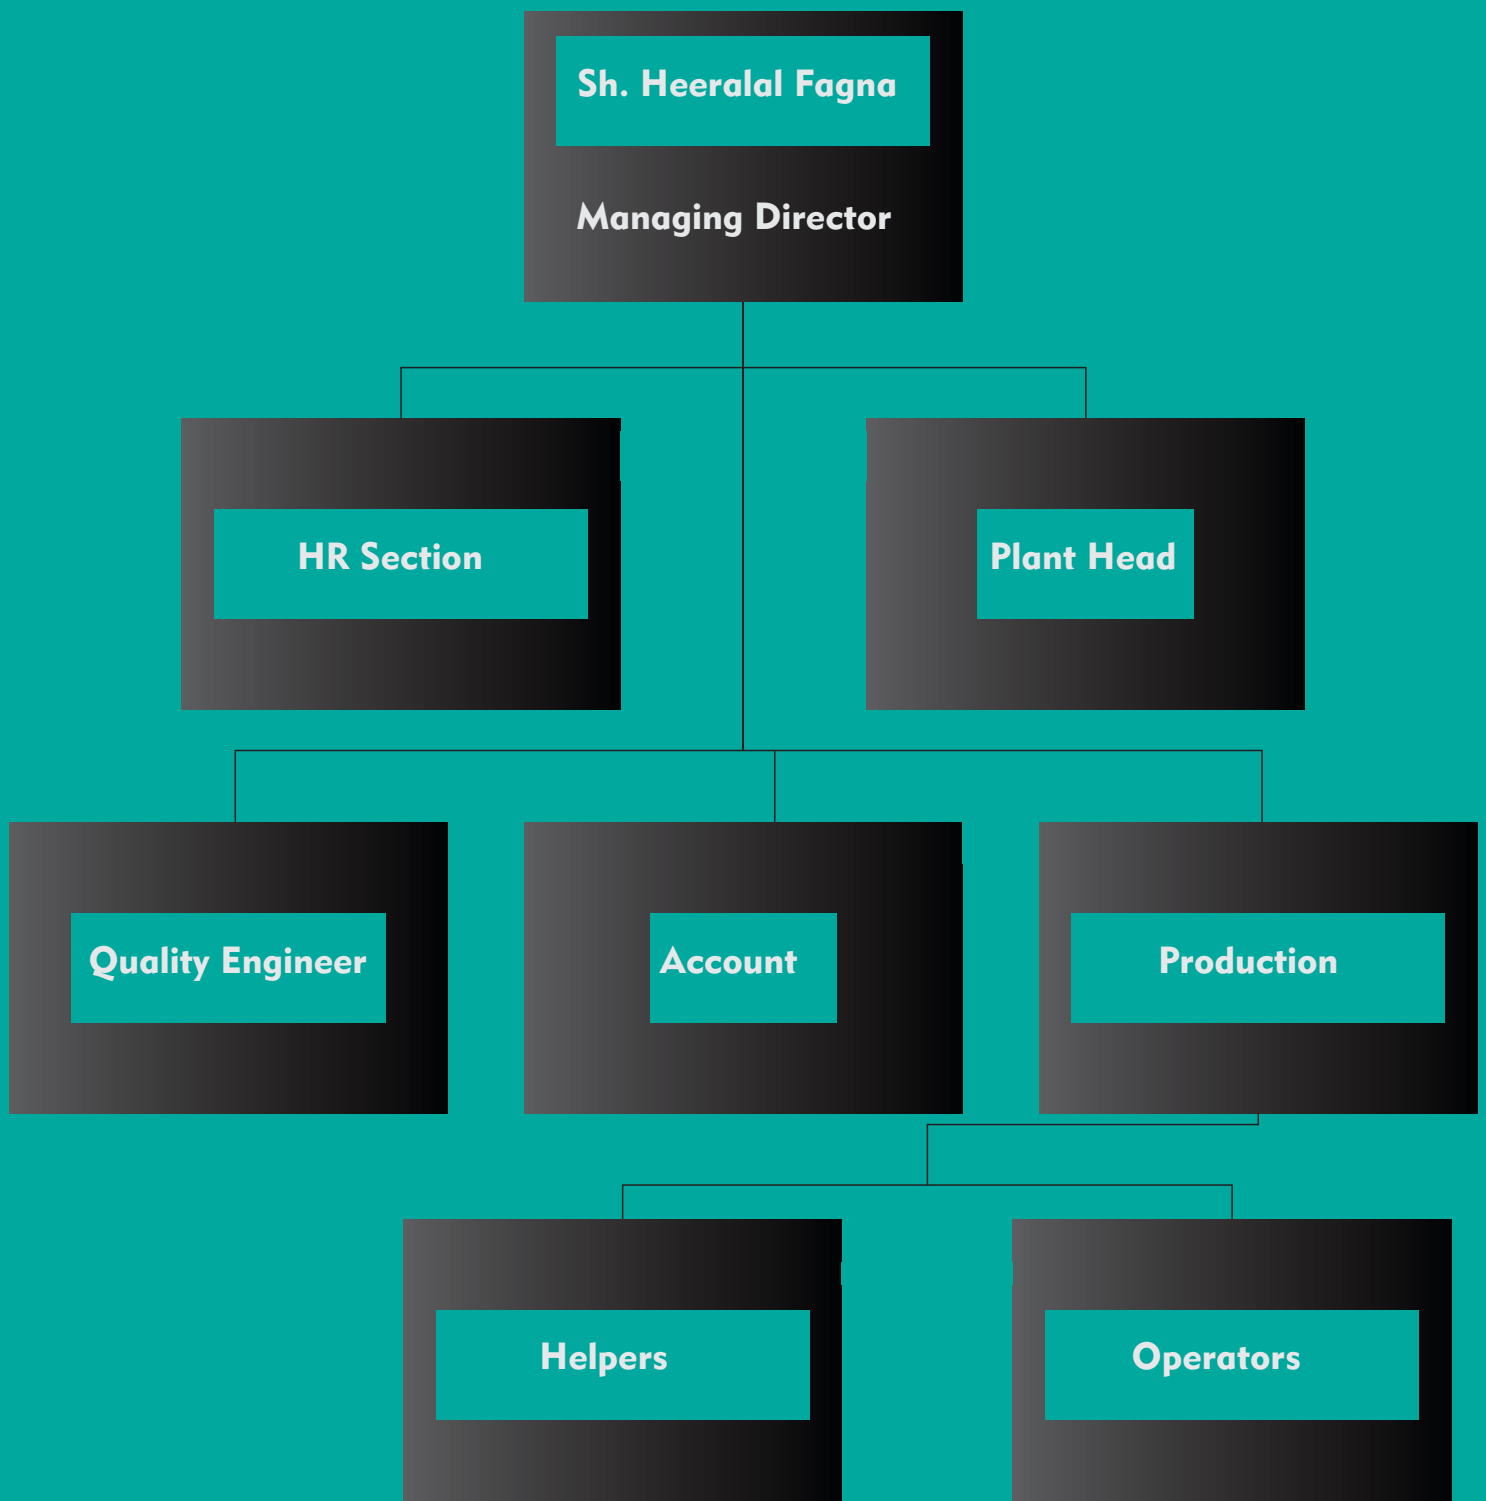

PRODUCT MACHINE UTILIZATION

<u>Name Of Machine</u>	<u>Quantity</u>	<u>Usage (Hours/Day)</u>	<u>Machine Utilization (in Percentage)</u>
CNC J 300 LM	6 Nos.	24 Hours/Day	50%
